

TKS Geography Curriculum Journey

YEAR 11 MOCKS

How do we mitigate and adapt to Climate Change?

End of Unit Exam

How do you conduct fieldwork in physical and human environments?

End of Unit Exam

How is Climate Change impacting cold environments?

Why are some places more developed than others?

Why do tropical storms form?

Where do earthquakes and volcanoes occur and why?

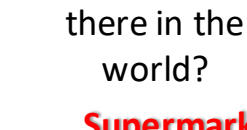

What is erosion?

How many people are there in the world?

How do I use a compass?

How do I use a compass?

What is the development gap and what strategies can help reduce it?

End of Unit Exam

Changing Economic World

Urban Issues fieldwork

How do hazards impact different places?

End of Unit Exam

The Living World

Rivers fieldwork

What are the challenges of resource management?

End of Unit Exam

Glaciation & Cold Environments

Changing World: Asian Tigers & African Lions

How is China changing the world?

How can we limit the impact of natural hazards?

How can I be a sustainable citizen?

Sustainability & Tourism

How can we stop deforestation?

What is the climate of the UK?

Weather & Climate

Should HS2 be built?

Weather Enquiry

How can we stop Climate change?

Key Geographical Skills

Baseline Test

How do I use a compass?

Paper 1 - Physical Geography

Revision & Exam Prep

GCSE EXAMS

Paper 2 - Human Geography

Resource Management

Landscapes of the UK

Urban Issues & Challenges

What are the causes and responses to desertification?

Ecosystems

Resource Management

Coasts

Coasts field trip

Coasts Exam

How can we protect our coasts from erosion?

How can we conserve water and energy?

How can we stop deforestation?

What are the problems of using fossil fuels?

Energy Saving Guide

How can we stop deforestation?

What are the causes and responses to desertification?

Ecosystems

Resource Management

Coasts

Coasts field trip

Coasts Exam

How can we protect our coasts from erosion?

How can we conserve water and energy?

Paper 3 - Geographical Applications

Revision & Exam Prep

GCSE EXAMS

Paper 2 - Human Geography

Resource Management

Landscapes of the UK

Urban Issues & Challenges

What are the causes and responses to desertification?

Ecosystems

Resource Management

Coasts

Coasts field trip

Coasts Exam

How can we protect our coasts from erosion?

How can we conserve water and energy?

How can we stop deforestation?

What are the problems of using fossil fuels?

Energy Saving Guide

How can we stop deforestation?

What are the causes and responses to desertification?

Ecosystems

Resource Management

Coasts

Coasts field trip

Coasts Exam

How can we protect our coasts from erosion?

How can we conserve water and energy?

Pupils start the AQA GCSE Geography course in year 10. By the end of the year they should have covered nearly 4 topics

In year 9 pupils consider difficult geographical concepts about why hazards occur and economic development, amongst others

In year 8 pupils began to tackle some of the big Geographical questions about sustainably and resource management

In year 7, we teach a range of physical and human Geography and provide pupils a foundation of key skills

THE 21ST CENTURY IS likely to be defined by geographical issues, from Climate Change to resource management, from shifting demographics to patterns of migration. Our vision is to provide pupils with the skills and knowledge to navigate the changing world around them and to inspire them to use that greater understanding to help take better care of it.
